This is the motivation made by Duo.

- A) When you have done with the lessons get a point (XP)
- B) This point will help you move up on the ranking lists against other learner
- C) When you won the weekly leaderboard, you will get a cup and some gifts.

## Personal Opinion

My personal opinion is that, Duo is a great chose for the experienced language learners.

My personal opinion of Duolingo is that it is recommended primarily for language learners who already have some knowledge of the language. It is also suitable for beginners to understand and master some of the words, phrases and grammar of the language. However, its communication tools are limited. This is due to the nature of the application. It is highly recommended for recall, practice, vocabulary development and grammar reminders. It is also useful when visiting a new country where you do not speak the language. It is particularly useful for practising basic words and greetings, as well as rudimentary communicative expressions.
